

DEMOCRATS MEET

Members of County Committee at Annual Meeting Elect

HON. J. T. MATT CHAIRMAN

And Treasurer—Executive Committee and Secretaries Chosen—Resolutions Adopted.

In response to a call from the Chairman, as provided by the rules of the party in the county, the annual meeting of the Democratic County Committee was held in the Court House last Saturday afternoon, Hon. John T. Matt, Chairman, presiding and Secretaries Jo. W. Tate and James F. Mickel at the desk.

After the reading of the call, Chairman Matt explained his votes in the Legislature for Speaker and Chief Clerk to the satisfaction of those present, then declared nominations to be in order. Dr. F. S. Campbell, Elza McElfish and Harry E. Cuppert were appointed a committee on credentials. J. M. Souser of Napier and F. B. Corle of Union were appointed tellers.

Emanuel Forney of Everett placed in nomination Hon. John T. Matt and Walter Price of Bedford Township nominated John L. Bortz of Bedford for Chairman. No other nominations were made and Mr. Bortz withdrew his name. Mr. Matt was elected by acclamation, and in like manner was selected Treasurer.

Dr. Americus Enfield nominated Daniel S. Horn, Esq., for Secretary and the names of M. W. Corle, James F. Mickel and Jo. W. Tate were also presented. Mr. Horn withdrew his name and Jo. W. Tate and M. W. Corle were elected.

Dr. Enfield moved that five persons whom he named constitute the Executive Committee. Chairman Matt would not entertain this motion and declared an open field, whereupon Dr. Enfield "nominated" the five but there were six others named and the roll call of the delegates resulted in the election of Frank E. Colvin, Esq., Hon. J. W. Huff, Nevlin Diehl S. A. Van Ormer and John L. Bortz.

Dr. Enfield then presented the following resolutions and moved their adoption (as a whole); the motion was seconded by Walter Price and when the vote was taken there was scattered ascent from over the room with no "No's" and they were declared unanimously adopted. It was a case of "vote for all or none" and a majority of the delegates remained silent.

The resolutions felicitated the party in the nation for its brilliant victory of last November and expressed confidence in the future with Woodrow Wilson at the helm of the ship of state.

Opposition was expressed to the "attempt of President Taft to perpetuate a life tenure of office by filling every place and position with incompetent superannuated Republicans not subject to competition or examination."

The resolutions also extended congratulations to Warren Worth Bailey, the new Congressman for the Nineteenth district, declaring that "every legitimate interest is safe in his keeping."

The presentment of the county committee regarding the national administration and civil service is as follows:

The Democratic party of this state and nation is to be congratulated upon the overwhelming election of Wilson and Marshall as President and Vice President of the United States. The platform adopted at Baltimore was the chart and compass that pointed the American people to a haven and harbor of safety. Wilson took the wheel and saw that the needle ever pointed to the pole and never once in that tempestuous voyage did his vision fail to keep the path traveled by Jefferson, Jackson and Bryan.

The full text of the resolution endorsing the candidacy of Daniel S. Horn for U. S. District Attorney is:

Resolved, By the Democratic County Committee of Bedford County in annual session assembled, that we heartily appreciate the proposed course of our Congressman in his efforts to secure this just and fitting recognition of the services of one who at all times has stood true to the principles of progressive Democracy and who, during the recent campaign, rendered most valuable services in advancing the progressive cause.

After the adoption of the resolutions the freedom of the floor was declared to all Democrats, and several brief addresses were made.

GRANGE MEETING

Held in I. O. O. F. Hall, Bedford—Resolutions Adopted.

Members of Bedford County Pomona Grange met in the I. O. O. F. Hall, Bedford, on Thursday, March 6. The meeting was called to order by Master E. E. Brown at 10:45 a. m., after which the minutes of the last meeting were read; roll call of officers given and installation services held. An excellent program was then carried out and important questions were ably discussed.

The fifth degree committee was appointed, which consists of Charles Koontz and Levi Roudabush.

A recess was then taken until 1:30 p. m., after which business was resumed and the following committees appointed: Auditing Committee, A. J. Shaffer, G. W. Oster and Clayton Smith; Committee on Resolutions and Printing, S. U. Troutman, W. F. Biddle and A. J. Shaffer; Committee on Entertainment, A. J. Shaffer and S. E. Lee; Committee on Investigation, J. C. Roberts, Charles Koontz and S. U. Troutman.

Eleven applications were reported for the Fifth Degree. The Auditors' report showed a balance of \$91.87 in the treasurer's hands.

The committee reported the following resolutions, which were adopted by Pomona Grange:

Resolutions on Road Building
Whereas, The issuing of bonds for building roads has been proven the most extravagant method in states other than Pennsylvania, and

Whereas, The present method of state supervision in Pennsylvania is most extravagant. For example, Mr. Bigelow's recent report in the fourteenth district, comprising Washington, Greene and Fayette Counties, shows there are forty-five men receiving salaries ranging from \$55 to \$200 per month and also three superintendents receiving \$125 per month, therefore, be it

Resolved, That we are opposed to the bonding of the state for the purpose of building eight per cent. of the roads of the state; that we are opposed to the present method of making a political machine of the highway department; that we favor the State Grange plan for state aid to highway improvement and that we favor National Aid for building roads.

Resolved, That we censure Governor John K. Tener in refusing to allow the Grange to suggest one of the two persons to be appointed to study the rural credit system in foreign countries and we pity him for his lack of courtesy and for his lack of knowledge in asserting that the farmers pay very little tax and get more than their share of state disbursements, when the facts are that the farmers directly and indirectly pay most of the tax.

Both sessions were marked with interest throughout. It was the largest and best Pomona meeting ever held in Bedford County. There are fourteen Granges in the county, several new ones being organized last year and various reports show there is an interest manifested in Grange work.

Mrs. Laura E. Cleaver

Mrs. Laura E. Cleaver, who, accompanied by her daughter, Mrs. C. C. Ruff, had been visiting in Washington, D. C., for several months, died there on Friday, March 7, at the home of her daughter, Mrs. W. A. Deffenbaugh, aged 77 years and five months.

Her body was brought to her late home in Bedford on Saturday where the funeral services were held Sunday afternoon, conducted by Rev. W. A. Gano, pastor of the Methodist Episcopal Church, with singing by the church choir. Interment was made in the Bedford Cemetery.

Mrs. Cleaver is survived by four children: Mrs. W. A. Deffenbaugh of Washington, D. C.; W. F. Cleaver of Somerset, Mrs. Clay C. Ruff of Shipper Rock and James E. Cleaver of Bedford. She is also survived by one brother and three sisters: William Wilkinson of Baltimore, Md., Mrs. Richard Coggins of Washington, Mrs. Henry Hancock of Anne Arundel County, Md., and Mrs. James Hancock of Baltimore.

Mrs. Cleaver was born in Baltimore October 7, 1835, and was the daughter of Mr. and Mrs. William Wilkinson, deceased. She was united in marriage to Rev. John W. Cleaver, a minister of the Methodist Episcopal Church, who died in Bedford in 1884. During the years of Rev. Cleaver's ministry, Mrs. Cleaver rendered most loyal service in his assistance in church and pastoral work. During her younger days she had a most excellent voice and one of her greatest delights in her later years was in the singing of hymns. After the death of her husband, Mrs. Cleaver devoted her life to her children and her church with a heart overflowing with love for both. She was an invalid for the past several years, the result of a fall received twenty years ago which injured her spine.

Mrs. S. B. Carpenter

Mrs. Ida May, wife of Samuel B. Carpenter, died at her home at Buffalo Mills on Wednesday, March 5, aged 74 years. She is survived by her husband, one son, Alden, and three daughters, Ethel, at home, Mrs. Francis Collins and Mrs. Blair Hurley.

The funeral services were held at Buffalo Mills last Saturday afternoon.

Samuel Lowery

Samuel Lowery died Monday morning, March 10, at the home of his son, Emanuel A. Lowery, near Ellerslie. He was born in Bedford County and lived here all the 86 years of his life. Interment was made in the Porter Cemetery, near Ellerslie, yesterday.

Notice is hereby given to our advertisers that unless we are notified of their desire to change copy by Tuesday night, change will not be made that week.

Saturday's Special Sale

Saturday's Special Sale at Barnett's Store was a marvel to the people of Bedford. Although 35 clerks presided at the counters, they were unable to wait upon the crowd, and the doors had to be closed several times during the day. The new proprietor, Mr. W. E. Slaughenhouse, has been in Bedford and made a favorable impression. Mr. Fuller, the manager of the store, has demonstrated his business ability, which our people are recognizing.

At tomorrow's sale, as mentioned in the store's ad on page eight, the railroad fare of all out-of-town customers, whose purchases amount to \$10 or more, will be paid one way.

Raise in Wages

Not Kicked Out of Court. Rainsburg, Pa., March 10, 1913. Gazette Publishing Co., Bedford, Pa.

Gentlemen:—I notice in The Inquirer the article of the "Cow Kicked Out of Court," which referred to the running at large of cattle in defiance to the borough ordinance. This is false. It was proved in court that the cow was not running at large, but was going to her pasture. My cow never ran at large in Rainsburg, except when going to her pasture.

There was no binding ordinance, for the Borough officers had not signed their signatures in the Ordinance Book.

If there is any consolation in my having to pay the costs to them, they are perfectly welcome to it. We knocked the ordinances out and showed their ignorance.

Yours truly, John Cessna.

Los Angeles, the "Pacific City"—A Million Dollar Hotel—Hollenback Park—Banking Institutions.

That co-traveler of mine had gone south by boat evidently, for the boat had not returned and neither had he. He left on Saturday, and it was now Tuesday. Friend Berkheimer and I took a run about the town and to the beach for a little bathing. Something has been said in relation to this popular resort, a sort of "Pacific City," and the magnificent million dollar Hotel Virginia, built in the shape of the letter "H," that its 250 rooms exquisitely furnished all might be exposed to the sunlight. On the tongue of every visitor was the solemn, "Some class to that hotel." And well patronized it was. The city is ambitious to see its harbor become a port of entry for eastern bound vessels from the Atlantic, after the completion of the Canal. Whether this ambition will materialize remains to be seen. There are a number of probable greater importance along the coast such as San Diego, and San Pedro and others that may rob this town of 17,000 people of part of its expected glory. Including the 45 miles of Canal, its distance to New York of 4,800 miles would render a pleasure outing of about ten days by water. Will not Europe then seem nearer? Which trip will our eastern Americans take first?

Much might be said of the Christian Science Temple, an imposing structure of brilliant, sparkling white; of West Lake Park, the lake of which teemed with fish, and the grounds of which were covered with brilliant flowers and palms, pelicans, ducks and other fowls; of East Lake Park and its many beauties; of the oil region; of the inimitable homes of Hollywood, partly described and to her centers of interest. That day's romp terminated in the theatre to enjoy the master artist, Nat Goodwin (I believe this is his name) whose divorce list has aided his popularity, seemingly not to his detriment, for his announcements are responded to by the best of talent.

The following day the same couple were active again, this time reaching remote Hollenback Park among the other interest. Our association with the popular diversion—photography, for more than two hundred pictures had then taken of hill, mountain, valley, park, city and sea, brought me in touch with an authority who placed Los Angeles second to Atlantic City, the leading amateur photographic center of the U. S. The Angel City had but 82 business concerns within its limits finishing prints and selling stock of every photographic description. The Chamber of Commerce exhibited marvelous specimens of the art in every tone and color from red to green. The walls of the specific Photo Club rooms, where anyone might finish his own work, if a member of the club, displayed most interesting pieces of workmanship, produced by both masculine and feminine manipulators of the common achromatic to the expensive anastigmat, which made the tiny snapshot or the extensive panorama or both enlarged.

Surely something should be said of the banking institutions of this city. There may be concerns with larger capital, or those who maintain a wider range of departments, or all said, do a greater business; but, I doubt if there is a prettier, more elaborately decorated, more completely furnished home for a banking institution in that city or any other. The Los Angeles Trust & Savings Bank had just moved into its new quarters a day or two before we came upon it, and then it was our pleasure to be escorted through various sections open for public benefit. I am not sure what would be most interesting to narrate concerning this institution, so will give in the order that I saw it and learned about it, the facts that were of interest to me.

Naturally, the first thing seen was the eleven-story, steel frame structure, architecturally in the style of the Spanish renaissance. The interior was elegantly lighted by the natural light of day. The ceiling, twenty-five feet above the floors is paneled in stucco and finished in gray and gold. The walls and great columns are finished in Tennessee marble. Distributed in the middle of the lobby are four large check desks of Belgian black marble, between which are black settees upholstered in Spanish leather. The main banking room, including the commercial, savings and trust departments occupies a space 60x142 feet. A central corridor with entrances at two ends of the building extends through this room. The entire first floor and basement of the institution is occupied for daily business. One not accustomed to such finery is attracted right and left, and perhaps partially bewildered, until some business is transacted. The mahogany finish of all woodwork catches the eye at once and the marble wainscoted corridors and stairways are none the less impressive. At the very entrance, the white Italian marble gives the signal for the elegance that may be found within. Business is evident everywhere. In some sections hustle and decisive action is exhibited, in other parts conservative consultation. About 75 employees are at their work, some of whom attend to trade through the 34 windows or desks that face the lobby. Now a prominent official grasps his headgear and is off, and an unexpected return. Several customers disappear with a member of the firm into one of the 24 rooms for holding meetings, or an employee is lending assistance to a new arrival in the lobby.

To the cellar we go by a spacious, handsome stairway. A picket of rich steel obstructs a further procedure until some properly attired

Only Unwise People Tolerate CATARRH

Here is a sure way to get rid of Catarrh; hawking, snuffling, and all misery caused by the Catarrh germs. Get a HYOMEI outfit today, follow the instructions and breathe five times a day deep into your lungs the germ killing air through the little inhaler.

At night just before going to bed use the vapor treatment as directed. This treatment is prescribed by the best Catarrh Specialists in America and Europe to destroy Catarrh germs. Booth's HYOMEI is Australian Eucalyptus and other splendid antiseptics. A complete outfit which includes inhaler is \$1.00; separate bottles, if the first does not entirely cure, can be obtained for 50 cents, and money back from F. W. gentleman appears and lets you in. The features of this man are not noticed so much as the massive circular door of the main vault, that confronts you with glistening metal. At first you say it is beautiful, then some exclamatory word accompanies a remark about its complexity or symmetry, a step or two and "Gee, that must be heavy." Its outside diameter is 100 inches—the inside 87. Then someone tells you that it is one inch larger than any door formerly made. You see the intricate machinery within and at once begin to count the radiating bolts that holds it fast when closed—there are 24 and each one is about five inches in diameter. You look at the big circular opening (doorway) into which it fits and ask "How much does that door weigh at any rate?" The answer is 30 tons and with its frame 50 tons. Surely, the rest of the structure must be proportionately made; but first someone leads with, "Who made it?"—The Bethlehem Steel works; and then in the midst of all the interest, thoughts drift back to Pennsylvania, which shares the honor of the heaviest door in the world.

Now the party (small) pass through the opening and carefully peer about, for each is interested in the vault said to be fire proof, burglar proof, riot proof and water proof, and supposedly earthquake proof. Judging from the tensile strength of 75,000 pounds to each square inch of the metal plates that form the walls. This vault is 37 feet long and 31 feet wide and made of only fourteen plates of 3½ inch Harveyized steel. It is said that it cannot be drilled by any means at the command of the burglar. Two of the plates are the largest ever rolled, each 31 x 11 feet and thickness 3½ inches.

Within the vault are safe deposit boxes, 5,100 in number, for which an annual rent of two and one half to one hundred and fifty dollars a piece is charged, from the smallest box to the individual safe with private combination. To open one of the smaller, requires not only a mechanical, but a human combination. Two persons must be present; one, the owner of the box, inserts his key; the other, the one in charge of the vault, inserts his key in a slot adjacent. A simultaneous turn of the keys releases the lock and the owner may deposit her valuables at ease or withdraw them while the officer is assisting elsewhere. Trunks and bulky packages of any kind may be left for safe-keeping in the vault for storage at prices ranging from fifty cents to one and one half dollars per month. During riot, the contents of the vault may be made still more secure, by flooding the approach to the same. Could human ingenuity construct anything more secure?

This institution must have had a remarkable business record considering the few years of its existence. It is capitalized at \$1,500,000 with a surplus and undivided profits of one million dollars. Its president, ever since the organization of the Los Angeles Trust Company (1903) is J. C. Drake, for many years an officer in the American navy. Vice President Motley H. Flint saw service in the Hawaiian Islands as a special agent for the postoffice department, when the islands were first annexed. Later he served as the Postmaster of New Orleans and president of the Metropolitan Bank & Trust Company until it was merged with the institution described. The additional two vice presidents, three cashiers, two trust officers and one real estate officer are men of specialization, varied experience and wide repute. Nothing has been said of its six detective departments, Commercial, Savings, Banking & Mail, Trust, Real Estate and Safe Deposit and the principals upon which they are conducted. Such information must be gained by actual business experience.

If descriptions of other features that assist in the making of this city were given with equal space, readers of these articles would feel assured we had entered Los Angeles to stay. With more articles written upon it and the surroundings, than upon any other city visited, and my co-traveler Hoover appearing on the scene the following morning, we move via A. T. & S. Fe R. R. to Riverside, among the orange groves of the state.

PHILIPPINE ISLANDS

Interesting Letter From Chaplain S. M. Lutz, Who Was Located There. Zamboanga, P. I., Dec. 10, 1912. Editor of The Gazette, Bedford, Pa.

My dear Editor:

In my last letter I promised to write you about Zamboanga. I shall now give you some of the most important facts concerning that important city. It is situated on the island of Mindanao, the largest of the Philippine group, at the extreme south of the Zamboangan Peninsula, on the Basilan Strait. Its latitude and longitude are seven degrees north and one hundred and twenty-two degrees east.

The city is built on low mud flats, rising only a few feet above sea level. In consequence of its low altitude and latitude the climate is very warm and dry. The rains are uncertain and not so frequent and copious as in many of the other islands. The seasons are therefore uncertain. Though the days are hot and the nights warm, yet the latter are very beautiful on account of the clear atmosphere, which gives a most wonderfully brilliant view of the heavens. The city has a good harbor, though only an open roadstead. Commercially it ranks fourth of the island ports, with a steady increase in trade. The opening of the Panama Canal may materially increase its importance as a port.

It is the ancient capital of the Moro provinces since the day of Spanish conquest. The only Spanish landmark of consequence remaining, however, is old Fort Pilar, a very substantial stone structure still standing and now utilized by our government as a storehouse and office rooms. At one time the Spanish garrison of this fort was commanded by General Wheeler of Cuban fame later, then a Captain.

The Spaniards were not able to cope extensively with the warlike natives and consequently their civilization only skirted the coast of the island and was largely confined to the Zamboangan peninsula. The whole Zamboanga district was one large penal colony where political and other prisoners and convicts from the northern islands were banished. It was only by using these people and their descendants as a bulwark that the Spaniards were able to form any civilizing contact with the Moros at all.

The many Spanish priests connected with their government and the Catholic Church failed utterly with the Moros in their missionary endeavors. The Moro so far as he is religious is of course a Mohammedan, and like all of that faith are fatalistic, and are well satisfied with their lot even such as it is.

The city of Zamboanga has one weekly paper in English and several in Spanish and the native tongue. A trade school for the native and a fair public school system are maintained. The city sanitation is crude but effective, and the general condition of the city is healthful. Cholera and other tropical diseases have been practically eliminated.

Plans for a modern light plant and sewer system have been completed and approved. The construction of the same is about to begin, which will, when completed, make the city quite modern.

The population is very varied. The Moros and Filipinos largely predominate. There are of course the usual quota of Asiatics. Much of the business is in the hands of Chinese, though some Americans and Europeans have been quite successful in various lines of trade. The municipality, including the city proper and the suburbs, is variously estimated at from twenty-five to thirty thousand inhabitants.

The American missionary societies have not yet done much work in the Moro provinces. At present, so far as I know, there are only two missionary centers of work in the whole province. There is much work to be done here, and I believe the time has now come when such work can be made in a degree successful.

The city is without any manufacturing industries. Its trade is largely with the outlying agricultural districts of which the principal product is copra (dried coconut meat), hemp, etc., which is exchanged mostly for food stuff, dry goods and hardware.

The custom house clearings show a gradual and substantial increase of business. A bank has recently been established and is doing well. A building and loan society, organized and managed by Americans, is flourishing.

As a consequence of the Moro province being under a semi-military form of government, the city has a somewhat similar form. The Mayor, or Presidente, as he is called, is a German-American and administers the affairs of the city with credit.

The post and telegraph offices are administered under the Insular Bureau of Posts and furnishes a fair service. The postmaster is an American in the civil service. In addition the city has a limited telephone service, with an extension under way to be owned and operated by the city. These are, I believe, the chief facts and I trust that they may interest your readers.

In the near future I hope to be able to send you a letter with reference to the famous Lake Lanao District, one of the world's most interesting places. I remain,

Very sincerely,
S. M. Lutz,
Chaplain U. S. Army.

"Dr. Thomas' Eclectic Oil is the best remedy for that often fatal disease—croup. It has been used with success in our family for eight years."—Mrs. L. Whiteacre, Buffalo, N. Y. (Adv.)

Many growing girls in school or business are frail—delicate—anaemic—lack energy and ambition and have thin blood. It is all unnatural and unless checked leads to serious and chronic ills.

Nourishment, not drugs, is the law of reason to build strength—but when appetite is poor and digestion weak, ordinary foods do not nourish—then SCOTT'S EMULSION is necessary.

SCOTT'S EMULSION overcomes just such conditions; its tissue material enters the blood without digestive effort and makes it rich. It tones the whole system and starts the healthy action of cells throughout the body.

Imitations are often offered, but to get results you must get SCOTT'S. Scott & Downe, Bloomfield, N. J. 12-66

HECKERMAN LETTER

An Epidemic of Spinal Meningitis in the South—Cures Recommended.

Cairo, Ill., March 8, 1913. This is the critical month of the year. It is the month of blizzards and many ills. February has passed with its many epidemics of grip and pneumonia. 'Tis as cold here as on Greenland's icy mountain. Only yesterday at Fulton, Ky., I saw lots of snow and the freight cars coming from the east and north each had several inches of snow on the top.

I left Dyersburg, Tenn., a few days ago. A few cases of that dread malady, spinal meningitis, had lately broken out nearby and this will again kill business, as it did in January. Here are some of the symptoms and cures: It always comes on with a congested chill. If you get the chill this day, in all probability you will be dead tomorrow. Spray the nose and throat well with Dabells sal and eat plenty of onions.

For over a month the schools of Dyersburg were closed on account of this disease and even now each child is asked by the teacher on opening of the school whether or not his nose and throat had that morning been sprayed. No child is allowed to come to or stay in school for any time whatever unless it had been treated that very morning. To insert a suction syringe in the spinal column and draw off a quantity of yellowish white serum and then inject into the spinal column some serum of some kind as a remedy is about the only cure. A doctor must be very well posted about the taking of the serum or corruption matter, as some call it, from the spinal cord else it kills his patient quickly. I have been told that many die because of the doctor's blunder in this particular.

Now they vaccinate you in the arm as a preventive and this is a new way. It takes three doses of the injection ten days to do the work. I have been told that this makes you immune for a year. I have never seen a case of it and do not want to see any. The spinal cord is so affected that it draws the head back and back until you are a ball. The few who do get well are affected in some way in their back. Since the serum, which they inject in the spine, has been discovered some get well. The number, however, is a very small per cent. of those afflicted. Four weeks ago I could not get through this country without a string to my ticket much like the tail to the boy's kite, but, thanks, I have been very well, whether 'tis the onions I eat or what I do not know.

Since writing you last, I have made some long jumps and have, on a couple occasions, been tempted to rest for a day or so. Then the thought comes to me, if I lay by and rest who will feed the widow and orphan and I plunk into the work with renewed energy.

A young man from Harrisburg,

YOUR KIDNEYS NEED CLEANING

Every Person, Healthy or Unhealthy, Ought to Give the Kidneys a Thorough Cleaning Right Now.

You clean your teeth daily. You wouldn't think of doing otherwise, and yet the teeth are not one-tenth so important to health, strength and a long life as the kidneys.

Do you know that the kidneys are little strainers or fine sieves, through which every drop of blood in the body passes again and again?

And when the kidneys become clogged they are unable to strain the impure matter from the blood, and it stays in the blood and causes disease in various parts of the body. Take rheumatism, for instance, this terrible disease is caused by uric acid in the blood, and uric acid gets into the blood only when the kidneys are clogged up and are unable to properly strain the impurities.

Just go to Ed. D. Heckerman today and get a bottle of Thompson's Barosma, the most scientific kidney, liver and bladder regulator the world has ever known, take it regularly for two weeks, and all the impure matter in your kidneys will pass out through the bladder, and your kidneys will be as pure and clean and healthy as any kidneys can be.

Thompson's Barosma is guaranteed by Ed. D. Heckerman to cure all diseases of the kidneys, liver and bladder, or money back. It is a wonderful tonic and blood purifier, and will bring the glow of health to the cheeks of the sick in a short time. 50 cents and \$1.00 a bottle. All druggists.

now living near Helena, Ark., planted twenty acres of Burbank potatoes last Thursday. He did the same thing last year and had a crop that paid him very well. He is well acquainted with Sam Sansom and George Harry. He always asks about the boys and this time asked about Mercer Tate, whom I never knew. He likes it at Helena and has made money and many friends since he migrated.

The Arlington Hotel of Memphis, where I have been stopping for years, recently changed hands and from American to European style. I at first thought I would not like it but the longer I was there the better I liked it. 'Tis now run by the Iselle Brothers, who own the building. Since they have taken charge, they have renovated the whole interior, putting down new carpets and much new furniture and I must say they are about as kind and do as much to make their guests feel at home as any landlord I know of anywhere. I guess when I went there on this trip and found all new clerks I did not like it. Then when I went into the dining room and had a check for 25 cents laid at my plate for a dish of oatmeal and cream, I thought a good bit, but I soon got into the racket and when I found I could get a full and very nice meal for half a dollar I began to change my thoughts, and I shall always continue to go to the old Arlington Hotel in Memphis. It is on the corner of Main and Adams Streets. I advise my friends to do the same.

My, what a rambling this letter is, but Will Pierson will read it just the same. He knows that the ability of man, as well as the temper of man, is most always concealed by circumstances, for to me human nature is very much like a closed book. I have studied human nature so much and so long that I now thoroughly believe that the claim made by so many people that they can read human nature is a false one. I firmly believe that the ability of persons to carry on their respective work is like their temper, always concealed by surrounding circumstances. I know men who wear smiles and are gracious in extreme during business hours, who carry home the most miserable grouches; what say you?

Yours truly,

M. P. Heckerman.

Bedford Bar Resolutions

The Bar of Bedford County would express its profound sorrow over the sudden and untimely death of Hon. Rufus C. Haderman, who, for more than thirty-two years, was enrolled as one of its esteemed and trusted members.

Mr. Haderman was born May 12, 1834, near New Enterprise, Bedford County, and at an early age evinced an aptitude and desire for an education and after pursuing his studies in the schools of his native village, entered Mercersburg Academy, from which institution he graduated with high honors in June 1876, receiving the degree of A. B., and subsequently that of A. M. from Franklin and Marshall College.

His career as a lawyer began December 10, 1881, when, after pursuing the prescribed course under the direction of Hon. John Cessna, he was admitted to the Bar, and from that time devoted his energies to his chosen profession, with the exception of a period of six years from 1891 to 1897, during which time he served as Prothonotary and Clerk of the Courts. At the time of his death he was serving the state in the capacity of attorney to the State Railroad Commission.

The respect and confidence so generously given him were abundantly justified by his ability as a lawyer, and by his character and conduct displayed in official position as in private life. His integrity and manly conduct in his association and intercourse with his brethren were always manifest, and he added to these qualities a courtesy of manner and a considerate regard for the feelings and opinions of others, that were repaid by the warm affections of his friends and the kindly esteem of those who were no more than acquaintances. He was frank and outspoken in speech, but he did not wound those from whom he differed, for he was too modest and manly to be scornful, and the habits and instincts of a gentleman governed his life.

He has gone away in the midst of his years, but leaves behind many sincere friends; and, none of his brethren of the Bar, who will fail to remember him with cordial kindness and true respect.

to show its appreciation of his admirable qualities, his kindly disposition and to preserve his memory, the Bar does now resolve, that a copy of this minute be forwarded to his sorrowing daughter, and that the same be spread upon the records of the court. Respectfully submitted,

Daniel S. Horn,
John H. Minnich,
Simon H. Sell,
Committee.

THE SECRET OF SUCCESS

Genuine Merit Required to Win the People's Confidence

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been cured, to those who are in need of it.

In an interview on the subject a prominent local druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows immediate results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

The success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

A free trial bottle will be sent by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper. Regular size bottles sold at all druggists—50c and \$1.00. Mar. 7-4t. Adv.

No Place to Fasten 'Em

A woman who could not decide what to give her husband for Christmas was bent on making the most of the suggestions she might obtain from the clerk in a local department store. The clerk desired to help her, but their ideas concerning gifts were far from coinciding.

"How do you think you would like one of these new art brass cuspidors?" suggested the engaging sales-lady.

"I'm afraid he wouldn't have any use for it. He doesn't chew tobacco," replied the prospective customer.

"We have some very nice smoking sets," remarked the girl.

"Oh, my, John doesn't smoke," exclaimed the woman.

"And here is a lovely decanter, with a beautiful set of wine glasses," the clerk ventured, desperately but sweetly.

"I hardly think that would do," faltered the good wife. "You see, we never have any wine about the house."

"Well, I might suggest a card table and some bridge decks."

"Oh, no, my husband never plays cards."

"Then you'd better take the elevator to the third floor, millinery department. I think your husband needs a pair of wings."—Indianapolis News.

For Dyspepsia

If you suffer Stomach Trouble, and you try our remedy, it won't cost you a cent if it fails.

To prove to you that indigestion and dyspepsia can be thoroughly relieved and that Rexall Dyspepsia Tablets will do it, we will furnish the medicine absolutely free if it fails to give you satisfaction.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been properly combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia. Their proper combination makes a remedy invaluable for stomach relief.

We are so certain that there is nothing so good for stomach ills as Rexall Dyspepsia Tablets that we urge you to try them at our risk. Three sizes, 25 cents, 50 cents, and \$1.00.

You can buy Rexall Dyspepsia Tablets in this community only at our store:

CORROBORATION

Of Interest to Bedford Readers.

For months Bedford citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills, by residents of this locality.

Would these prominent people recommend a remedy that had not proven reliable?

Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement?

The following statement should carry conviction to the mind of every Bedford reader:

Mrs. William Adams, Clarence St., Hyndman, Pa., says: "I willingly confirm all I said about Doan's Kidney Pills when I publicly recommended them some years ago. They were used in my family in a case of kidney trouble and backache and they made a permanent cure. Since then Doan's Kidney Pills have been taken off and on and they have always acted promptly and satisfactorily."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. Mar. 14-2t. Advertisement.

GIFTS OF THE VIKING.

How Norse Sea Kings Enriched Our Nautical Vocabulary.

When we say a ship is bound for a certain port or homeward bound, we are using, not the past participle, as we might think, of the English verb to bind, but of a Scandinavian word meaning to prepare, to get ready—a word which in the form of "bound" still lives on in northern dialects.

"Billow" is probably a Scandinavian word which survived in one of the northern or eastern dialects which still preserve so many Danish words. It made its way into southern English in the sixteenth century and was given a literary standing by its use by Spenser and Shakespeare.

"Wake" for the track of a ship is another Scandinavian word preserved in dialect. Its original meaning, as Prof. Skeat tells us, was that of an opening in the ice, especially the passage cut for a ship in a frozen lake or sea and then, from being applied to the smooth water track left by the ship after its passage through the ice, it came to be used when there was no ice at all. This useful word is one of the nautical terms which the French have borrowed from the English, although it is not easy to recognize it at first in its French form of *ouache*, and it is still used on the Norfolk broads with its original meaning of an open place in the ice.—English Review.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Harvey Hendrickson, who was badly hurt last week, is better.

Not Paint

With linseed oil at \$1, what sort of oil do you think they use in "paint" at \$1.75 and \$1.50?

That stuff is counterfeit paint. You can cheat yourself; you can't cheat Time or Weather.

Paint is a rubbery coat over wood and iron to keep-out water.

Counterfeit paint may look like it; counterfeit money looks like money. What are all counterfeits for? They are all alike.

A Widow Not Comfortless

Elmer C. Beckley of St. Clairsville was a hard working man. But six years ago he took a glimpse into the future and bought from me a policy in the great Provident Life and Trust. He prized that insurance. He knew what it would mean to his wife if he should be taken by death. Now he has gone; but thanks to his love and loyalty the widow and three young daughters are not without physical comfort. Mrs. Beckley appreciates the promptness of the Provident in paying her husband's policy of \$2,000. She does not doubt the value of life insurance.

"The Universal Car."

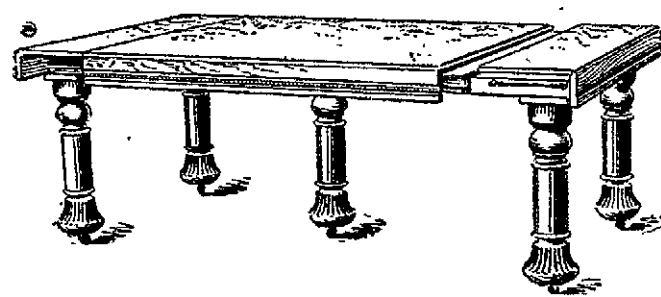

The Ford is the car of the day—no doubt of it. It is the one universal car. Its simplicity and surety of operation makes it a real joy to him or her who loves the open road. Its lightness frees from annoying tire and other heavy-car troubles. Its economy makes for it a world-wide appeal. Its price makes it "THE PEOPLE'S CAR."

Thousands upon thousands of Ford cars are being sold today to people who have owned—or do still own—heavier and more expensive cars.

They are learning that false pride is an expensive commodity and that the Ford will get them there as surely, as swiftly, as comfortably at a fraction of the cost.

The Dining Table of All Tables

The above picture gives you but a very faint idea of the convenience of this End-Extension Table.

Without disturbing the position of the table in the least it may be extended one or more feet up to its full length, simply by pulling out the end of the table, raising the filler into position and then closing it up to top as in an ordinary table.

We have handled this table for years, and know that it gives perfect satisfaction.

Prices range from \$10

to \$17 F. O. B. factory.

Table as illustrated has 6 1/2 inch legs, 42x42 inch top, 6 feet long at \$13.50 F. O. B. factory. Furnished at the store at a fair advance in price. This table is one of the best on the market.

YOUR EASTER HAT

PERHAPS nothing is dearer to the heart of a woman than her hat, and nothing is selected with more deliberation and thought. A hat strikes the eye first, be it simple or elaborate, and a woman to be really well dressed must have a hat that is becoming and, at the same time, in perfect style. At **GILCHRIST'S STORE** on Pitt Street, Bedford, Pa., the new Spring hats have arrived and the showing next week will remind one of a hot-house full of rare and beautiful blossoms.

Mrs. Gilchrist has exhausted the markets of the east in selecting the Spring hats and the patrons of this store have a real surprise in store for them when they inspect the Spring creations. All the latest styles will be represented,—not in one hat but in hundreds,—Tam O'Shanter crowns are commanding much attention. A visit to the store next week will convince the most skeptical that **GILCHRIST'S** is the proper and most economical store at which to select your Spring Hat.

This is the Clothing for You

OPPENHEIMER Superior Clothing is bought and worn by men who take a justifiable pride in their personal appearance.

It is made for those who seek correct style and quality, but who insist upon true value.

The man dressed in Oppenheimer Superior Clothes may go about his business or mingle among men dressed in the best and most costly tailored-to-order garments and feel absolutely sure that his Oppenheimer Superior Suit will do him justice.

Confident of the correct style, the perfect lines and the assured quality of his Oppenheimer Superior Clothes he is conscious that they show him to advantage no matter what the company.

UNION
MADE

OPPENHEIMER Superior CLOTHING

The comfortable "hang" free from binding, bulging and wrinkling of his Oppenheimer Superior Clothes puts him at ease and enables him to front scrutiny confidently and composedly, with a pre-knowledge of approval.

That feature of Oppenheimer Superior Clothing—the way it conforms to the figure—is a feature you will not find developed to the same degree of perfection in any other popular priced ready-for-service clothing.

In quality of fabrics, in the lining, inter-lining and general workmanship, Oppenheimer Superior Clothing compares favorably with tailored-to-order garments costing half again to double the prices.

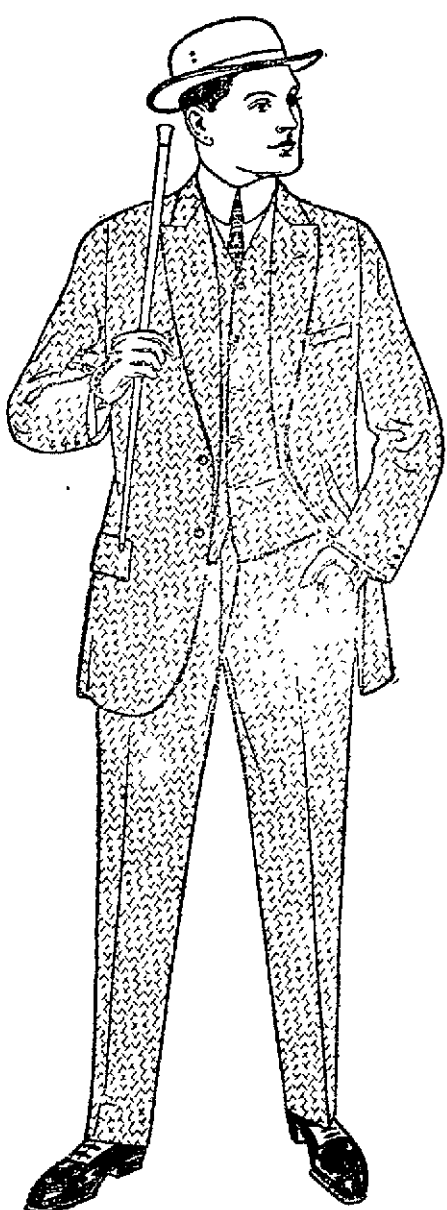

In the matter of price only does the Oppenheimer Superior Clothing belong in the popular class.

In all other points it must be compared with the best and most costly clothing made.

The moment you try on an Oppenheimer Superior Suit you have the feeling that "this suit was made for me." No need for the salesman to tell you it fits. You know that it does.

And you have an assurance, in this first impression, of the quality and thorough workmanship of Oppenheimer Superior Clothing, which ripens into positive conviction as you continue to wear it.

Everywhere, in every community, you will find Oppenheimer Superior Clothing worn by men who know clothing values and who insist upon having the best.

These men are not restricted as to price. They can afford to pick and choose.

That they choose Oppenheimer Superior Clothing in spite of its low price is a point that refuses to be overlooked.

This spring the Oppenheimer line reveals a number of new models—the best examples of ready-for-service clothes this big modern establishment has ever produced. Best in style, best in workmanship and best in value.

These models have been faithfully reproduced in our new Style Book which will be sent free upon request. Write for this Style Book or, better still, look up the dealer in your town who handles Oppenheimer Superior Clothing and see the models there.

INSURANCE CLAUSE

Every OPPENHEIMER garment is inspected rigidly and then offered for sale with ABSOLUTE INSURANCE against defect of any kind whatsoever. Should the slightest irregularity be discovered, the makers will correct it without argument, quibbling or delay.

A Wonderful Gun

Since the introduction of gunpowder as a propellant and the general use of firearms in warfare and hunting there has been more or less insistent demand for mechanisms that would give the soldier or hunter a number of shots at his command without reloading and enable them to be rapidly discharged. The first patent for a firearm of this description seems to have been issued by the British patent office in 1718 to James Puckle, a citizen of London, for a gun mounted upon a tripod, having a single barrel and a revolving cylinder. Strangely enough, one of the claims set forth in this patent appears almost verbatim 135 years later in a patent taken out by Rollin White, an American inventor of a revolving pistol. Another curious claim of the patent was: "The mechanism permits the use of square bullets against the Turk and round bullets against Christians. Moreover, so great is the rapidity of fire that ships armed with the gun cannot be boarded by any attacking force."—S. J. Fort in Outing.

Lesson XI.—First Quarter, For March 16, 19

THE INTERNATIONAL SERIES.

Text of the Lesson, Gen. xxii, 1-13. Memory Verses, 12, 13—Golden Text, Hos. vi, 6—Commentary Prepared by Rev. D. M. Stearns.

In the last part of the previous chapter we see Abraham dwelling at Beer-sheba, the well of the oath, having made a covenant with Abimelech. There he called on the name of Jehovah, and for the first time we have the name of "the everlasting God," which carries us on to Ps. xc, 2; Isa. xl, 28. Every new name of God has some new revelation of Himself.

The everlasting God not only tells us that He is from everlasting to everlasting, but He loves with everlasting love and carries us in His everlasting arms and is always the same Jehovah. (Jer. xxxi, 3; Deut. xxxiii, 27). Whether He blesses us or tries us, He is the same God of love. For years the heart of Abraham had been made glad by this boy, this beloved son for whom he had waited full twenty-five years, and now he is commanded to offer him for a burnt offering. There is nothing quite like this in all the Bible story. The demand seems overwhelmingly awful, but God is love, and God is faithful, and Abraham knew it. The New Testament record is that, knowing the promise and being certain that God would somehow fulfill it, even if He had to raise Isaac up from the dead, He did receive him from the dead in a figure (Heb. xi, 17-19).

After some twenty years Jacob received Joseph back as from the dead. God spared Isaac and Joseph, but He spared not His own Son (Rom. viii, 32), and He being literally alive from the dead, all things are made sure to us in Him.

I cannot think that Abraham talked this over with Sarah; but, being sure that he would bring the boy back again, he started off early in the morning, taking only two of his young men with him. His destination was Moriah, which is now part of Jerusalem, the same hill that David bought from Ornan, the Jebusite, where the destroying angel stayed his hand when Jehovah said, "It is enough," and where Solomon built the temple (II Sam. xxiv, 16, 24, 25; II Chron. iii, 1).

How wonderful are the associations of truths and places in Scripture and how all center around the cross and the indescribable sacrifice of the Son of God! It was on the third day that the place was reached and the great transaction accomplished (verse 4), and how often a third day event calls our attention to the great center of all past history and to the resurrection time, ever drawing nearer! Consider Jonah and the marriage in Cana and all others that you can find in the book.

Note the confidence with which Abraham says to the young men, "I and the lad will go and worship and come again to you" (verse 5). He was fully persuaded that it would be so. Now see the lad carrying the wood and the father with the fire and the knife, and they went both of them together (verse 6). One cannot but see the Son of God bearing His cross and remember the words, "It pleased the Lord to bruise Him; He hath put Him to grief" (Isa. liii, 10). It was the only way to save us and so wondrously foreshadowed in Abraham and Isaac.

Hear the lad as he says to his father, "Behold the fire and the wood, but where is the lamb for a burnt offering?" (Verse 7.) Oh, the anguish of the father's heart! But do we ever consider the anguish of the heart of God the Father?

What did he know of "the Lamb slain from the foundation of the world" (Rev. xiii, 8). Was it just then or when he placed the ram on the altar in Isaac's stead or through the whole incident that he saw Christ's day and was glad? (John vii, 53). Notice the repeated saying, "They went both of them together" (verses 5, 6, 8), reminding us of the "they two went on" of I Kings ii, 6, 7, 8, 11, and suggesting perfect oneness and accord. We do not imagine any resistance on the part of Isaac as his father placed him on the altar upon the wood and bound him and took the knife to slay his son. We think of such words as "of his own voluntary will"; "I lay down my life of myself"; "I delight to do Thy will, O my God" (Lev. i, 3; John x, 17, 18; Ps. x, 8; Heb. x, 7, 9), and we remember how the Lord Jesus gave Himself into the hands of His enemies and suffered them to take Him and bind Him and lead Him and mock Him and scour Him and crucify Him, and He took it all as a cup which His Father gave Him to drink. It was enough. The child of promise was given back to God. Abraham saw God and not the child, and now the Lord speaks, the uplifted hand is stayed, and the ram is placed on the altar in Isaac's stead.

Isaac was spared and given back from the dead in a figure. God spared not His own Son, and as truly as the ram died in Isaac's stead so did Jesus Christ die in my stead. "His own self; bare my sins in His own body on the tree"; "the Son of God loved me and gave Himself for me." By His being made a curse for us all who truly receive Him are delivered from the curse of the law (I Pet. ii, 24; Gal. iii, 20; iii, 13). The Lord did see and provide Jehovah-jireh (verse 14) and margin, "What He has provided in Him see Eph. i, 3-7; Rom. viii, 32; I Pet. i, 3, 4, and remember that all is freely by grace (Rom. iii, 24).

THE PRANKS OF BIRDS

Bluebirds and Wrens Battle for Possession of Jug.

Dear Editor:—I noticed an article in your valuable paper referring to the protection and care of birds, which has induced me to write this true story of bluebirds and wrens.

In a certain township of the county, a two-story stone milk house (spring house) has been standing for more than a half century. When the masons erected it, they knocked the neck from an old eastern jug, and cemented the jug into the wall toward the comb of the gable, leaving the open end on the outside. The kind hearted workmen placed the jug there for a purpose (can you guess it?), and every summer since then the wrens have built their nests in it.

One particular spring, which I wish to tell you about, a pair of pretty bluebirds arrived at the stone edifice a day or two prior to the arrival of two saucy wrens. Of course the first pair of birds took possession of the jug without the least trouble or ceremony, and at once commenced carrying straws, weeds, leaves and feathers to build a nest in the new home. About noon of the second day a pair of wrens flitted into the yard, and flew around the milk house a few times, then made a straight dive for the opening in the jug; darted into it, and soon flew out squalling and chirping very spitefully. The reason the wrens scolded was that they found one of the bluebirds very busy fixing things up inside. The much frightened bluebird followed the intruders out, and then a feathered warfare began that lasted for some time.

They darted at the bluebirds and tried to drive them away, piping, screeching and chirping as they battled. For a time the bluebirds fought with the wrens, but at last the angry wrens conquered the bluebirds and then the defeated birds retired to a near-by tree. While they were perched in the tree the wrens flew into the jug, and commenced to "clean house" by carrying out the straw, feathers, etc., that the bluebirds had carried in.

While the wrens were busy cleaning house the bluebirds were deciding what to do. All of a sudden they flew in a straight line for the jug and darted into it like a flash, and in one instant the wrens came out as though they were Russian soldiers being driven by an army of Japs. They immediately turned, darted into the jug and chased the bluebirds out in the manner in which they had done a few minutes before. Then another battle followed, and for some time neither party entered the jug.

Finally they stopped fighting, and each side began to carry straws and leaves into the jug. The wrens made two trips while the bluebirds made one, and late in the afternoon the wrens had filled the jug so full of twigs that the bluebirds could not get in. There was enough room for the wrens to go in and out, so they held the fort against their bigger foes, who made several attempts to tear the barrier of twigs away but without success. Before twilight the bluebirds flew away and never came back; and the wrens have had full possession of the jug ever since.

Schellsburg, Rt. 1.

Missionary Society Meeting

The Woman's Foreign Missionary Society of Huntingdon Presbytery will meet on March 26 and 27 in Huntingdon. A special program with interesting features will be published later.

Speakers in the interest of the New China Movement are Miss Charlotte E. Hawes, well known throughout this Presbytery, and Rev. Frank S. Dobbins, for many years missionary to Japan. Mrs. W. O. Johnston will speak for Korea.

Dr. Dobbins will give an address on "Changing China" Wednesday evening, illustrated by lantern slides which he himself took when sent on a mission to study conditions in the very heart of China.

Those in charge are most anxious to make a success of an exhibit of curios from foreign lands, and solicit the loan of curios which will be greatly appreciated, carefully guarded and returned in good condition by the committee. Please send them at once to Mrs. Wallace Chisholm, Little Briar Cliff, Huntingdon, Pa.

Mrs. M. F. Fisher of Huntingdon has charge of the assignment of delegates and all such desiring entertainment should apply immediately.

No Trouble

"What was the trouble up at the Forks?" asked the mountaineer.

"No trouble at all," replied the sheriff. "It seems that Shep Johnson bet Hank Williams a dollar that he could put a bullet through Hank's hat without killing him."

"And what happened?" asked the mountaineer.

"Hank won the bet," replied the sheriff.—Cincinnati Enquirer.

In all our experience with hair tonics the one that has done most to gain our confidence is Rexall "93" Hair Tonic. We have such well-founded faith in it that we want you to try it at our risk. If it does not satisfy you in every particular, we will pay for what you use to the extent of a 30 day treatment.

If Rexall "93" Hair Tonic does not remove dandruff, relieve scalp irritation, stop the hair from falling and promote a new growth of hair, come back to us and ask us to return the money you paid for it, and we will promptly hand it back to you. You don't sign anything, promise anything, bring anything back, or in any way obligate yourself. Isn't that fair?

Doesn't it stand to reason that we would not make such a liberal offer if we did not truly believe that Rexall "93" Hair Tonic will do all we claim for it—that it will do all and more than any other remedy? We have everything there is a demand for, and are able to judge the merits of the things we sell. Customers tell us of their success. There are more satisfied users of Rexall "93" Hair Tonic than any similar preparation we sell.

Start a treatment of Rexall "93" Hair Tonic today. If you do, we believe you will thank us for this advice. Two size bottles, 50c and \$1. You can buy Rexall "93" Hair Tonic in this community only at our store:

Automobile Aroma

Farmer Hiram was mending the front fence when an automobile whizzed past, emitting a trail of blue smoke from its oil-choked engine.

Farmer Hiram's hand went to his nose. When the car had disappeared far down the lane and the smell had died away he ventured to address the hired man.

"Sam," he said, "they may be swell city fellers an' all that; but they certainly was smokin' some vile seegars."

Elbert Hubbard's Advice on Banking

"My advice is put all your spare cash in the bank and let it remain there, paying your bills by check. The people who imagine the ginger jar, stocking, clock or trousseau pocket are safer receptacles for money than a bank, are shining marks for mining sharks, also for moth, rust, thieves and fire."—Elbert Hubbard.

Colonial Fireplaces.

The early American fireplace was merely a cheap provincial copy of English models of the same period. The application of the word "colonial" to pre-Revolution architecture and decoration has created a vague impression that there existed at that time an American architectural style. As a matter of fact, "colonial" architecture is simply a modest copy of Georgian models, and "colonial" mantelpieces were either imported from England by those who could afford it or were reproduced in wood from current English designs. Wooden mantels were indeed, not unknown in England, where the use of a wooden architrave led to the practice of facing the fireplace with Dutch tiles, but wood was used in England and America only from motives of cheapness, and the architrave was set back from the opening only because it was unsafe to put an inflammable material so near the fire—Exchange.

Dreams.

Dreams are excursions into the limbo of things, a semideliverance from human prison. The man who dreams is but the locale of various phenomena of which he is the spectator in spite of himself. He is passive and impersonal; he is the plaything of unknown vibrations and invisible sprites.

The man who should never issue from the stage of dream would have never attained humanity, properly so called, but the man who had never dreamed would only know the mind in its completed or manufactured state and would not be able to understand the genesis of personality. He would be like a crystal incapable of guessing what crystallization means.—New Orleans States.

Got Cold Feet.

Weeks was a queer genius and was always telling his friends that he would put an end to himself. One exceedingly cold night he vowed he would go out and freeze to death. About midnight he returned, shivering and snapping his fingers.

"Why don't you freeze?" inquired an affectionate relative.

"Well, by Jove," replied the pseudo suicide, "when I freeze I mean to take a warmer night than this for it!"—Bliss.

Surprised Her.

Mrs. Jaggsby—I was very much surprised at the condition in which you came home last night. Jaggsby—There you go again. I'd be willing to swear that I came home perfectly sober. Mrs. Jaggsby—So you did. That's what surprised me.—Illustrated Bits.

Too Cool.

She—Were you cool when the bullets began to fly? Major Run—I was so cool that I shivered like a leaf.—New Orleans Times-Democrat.

Good material is half the work.—From the German.

Announcement Extraordinary

On account of the many customers from out of town that were unable to gain admittance to the store, or were unable to receive attention from the clerks, owing to the immense crowd last Saturday, we have decided to pay the carfare one way of customers whose purchases amount to \$10.00 or over.

This offer is for Saturday, March 15, only

In order to receive this rebate the customers must mention to the clerk that they are from out of town and the clerk will note same on saleticket. The saleticket when totalling the proper amount and accompanied by the return half of R.R. Ticket will be promptly redeemed in cash for the amount of carfare.
